Description:

Vacuum porcelain furnace advantage:

-High-quality temperature automatic adjustment function, to ensure the actual temperature error within +/- 1 °.

-Easy to operate, small size, the world's smallest ceramic one of the furnace. -Precision stepper motor drive, smooth free operation and no jitter.

-Quartz spiral furnace. Automatic temperature calibration before each roasting process.

-Tray no noise, speed programmable .

-USB port for easy connection with PC service program .

-True color touch screen, easy to operate.

-99 custom programs and built-in programs.

-status indication.

Specification:

Product Name	Dental ceramic vacuum porcelain furnace
Voltage	110V/220V,50/60HZ
Power	Max.1.5KW
Electric current	14.5ampere@110V,7.0ampere@220V
Max. Temperature	1200C
Working Temperature	≤1150°C
Heating rate	0-150c/min
Vacuum degree	-98Kpa
Thermocouple	K type
Heating element	Fe-Cr-Al-Mo wire
Packing size	41*54*85cm(furnace);41*32*28cm(Vacuum Pump)
Packing Weight	27kg(Furnace),10kg(Vacuum Pump)

Spare Parts	
Item	Quantity
Vacuum Pump	1 set
Vacuum Pipe	1 pc
Maintenance Kit	1 bag
Honeycombed plate	1 set
Backing Tray	1 set
